Rather, he saw the man in the mirror as some kind of double, similar yet different. For Mirror Image, with a vertical periscope the shift of the world is away from the observer and down, both by the length of the periscope, but it is more practical to consider the equivalent shift of the observer: up, and backward. Edit resize scale and rotate.

If the party accepts the offer but changes on a term, a contract does not exist. As a consequence, if one looks in a mirror and lets two axes up-down and front-back coincide with those in the Mirror Image, then this gives a reversal of the third axis left-right. An easier way is to use Word then copy and paste onto Google Docs.
