The gentle sound of bees buzzing among the flowers: a favourite sound of of the honey bee, but also the buzzing sounds made, that convey the whereabouts .

### **Flowers can actually hear buzzing bees and human voices | From the Grapevine**

They live in groups called colonies, where you can find thousands of bees. While flying, honey bees average a speed of 15 miles per hour and make a buzzing.

Hatta's hills are alive with the buzzing of bees. Sangeetha Swaroop Feb 24, . Less than km away from Dubai, the Hatta Honey Bee Garden offers a.

It is the engine that you hear, as with a prop driven aircraft. The wings of most insects are driven indirectly by which I mean the powerful flight.

Seriously though - you can learn a lot by listening to your garden. Listen carefully and you'll hear bees buzzing as they fly from flower to flower.

We watch a short video summarising the honey production process at the Hatta Honey factory and we are then helped into A Buzzing of Bees ventilated protective gear before we follow Mustafa Mohammed Mustafa, a professional beekeeper, into the apiary. Now modern listening equipment and computer software have revealed a secret bee vocabulary much more intricate than previously thought. Not so during buzz pollination. Now imagine if you had a camera that was zoomed in on one of those objects extremely close. This vital task of pollination is why they are so important to our ecosystem, especially considering the fact that they are responsible for one in every three bites of food that we have on our plate. See Subscription Options. We will not publish comments that bully, tease, or are mean-spirited. Further, we describe computer linguistical algorithms to analyse the frequency of words in Wonderopolis.
