Crystallised sugar is removed by centrifuging at speeds of Adequate air cir- culation through the silos will extend shelf life which, under satisfactory conditions, will be nine to twelve months. This relates the amount of water present in the air with the total amount of moisture that could be held if the air was fully saturated under the same conditions.

Tanksmustbecompletelyself-draining.Theyareisomers,i.It is also claimed that there is less danger of tooth decay when using fructose to replace cane or beet sugar.
