We're sorry, something went wrong. Back to top. Steve Ryfle and Ed Godziszewski, noted scholars of Japanese science-fiction cinema, have crafted what is possibly the definitive study of Honda's life and work – although it should be noted that at least one other book on Honda exists: Mushroom Clouds and Mushroom Men: The Fantastic Cinema of Ishiro Honda by Peter H. FuManchu. I think it's pretty obvious what it is about, but could you go into a little more detail anyways?
