For now, we're stuck with the fanged bat-like creatures of The Silence who have just been unleashed from an holed-off area in Uncharted Cave System, Pennsylvania postcode unknown. I had to make it make sense. They killed anything and everything that made noise, assisted by an incredibly powerful sense of hearing far beyond anything produced on the Earth.

Also, while there are few conversations at all in the movie, the least talking Emily gives her littlest brother a forbidden toy in the beginning, setting the stage for much of the movie. Then, one of the monsters pounces on one of the raccoons after it moves away from the house, crushing it in one swift stroke. As seen multiple times in the film, electronics like lights tend to flicker in a Monster's presence.
