By FY 1, approximately 8 out of every 10 inmates in federal prison were incarcerated for a drug, weapons, or immigration offense. Retrieved May 20, Figure 10 shows that the level of overcrowding in the federal prison system The Federal Prison Population Buildup: Overview changed over the years. Weexpose. Both analyses found that TCI had an assault rate that was lower than what would have been expected based on the composition of its inmate populations, but so Policy Changes two of the other three BOP-operated facilities in the study the other BOP-operated facility had an assault rate that was similar to and Options would have been expected. Congress could consider reducing the amount of time inmates are incarcerated in federal prisons by repealing mandatory minimum penalties for some offenses or reducing the length of the mandatory minimum sentence. An issue before Congress is whether policy makers consider the rate of growth in the federal prison population sustainable, and if not, what changes could be made to federal criminal justice policy to reduce the The Federal Prison Population Buildup: Overview population while maintaining public safety.
