Scattered fibroglandular breast tissue is a condition where women have a mixture of high- and low-density tissue in their breasts. Women with scattered fibroglandular tissue are unlikely to experience any pain, but may developed benign lumps or cysts. Women diagnosed with scattered.

The Underestimated Risk of UV. Scattered Radiation. "Don't go out in the sun in the middle of the day! Put your sunglasses on!" More and more people are.

The use of proper shielding, shorten the exposure time and keep the distance are the practices to reduce scattered radiation risks to staff involve in this.
